

Redhawk Unified Managed Account
INVESTMENT PLANS TO BUILD YOUR FUTURE

Redhawk Unified Managed Accounts or ("**RUMA**") are tailored to build asset value and fulfill retirement goals using global tactical or strategic asset allocation strategies. Depending on one's risk tolerance, investment personality and other criteria, we have provided a range of investment portfolios to choose from. Completing our online questionnaire provides all of the information we need to select the portfolio model most suited to your investment style and goals. The asset allocations are implemented using Exchange Traded Funds ("ETFs") and individual stocks.

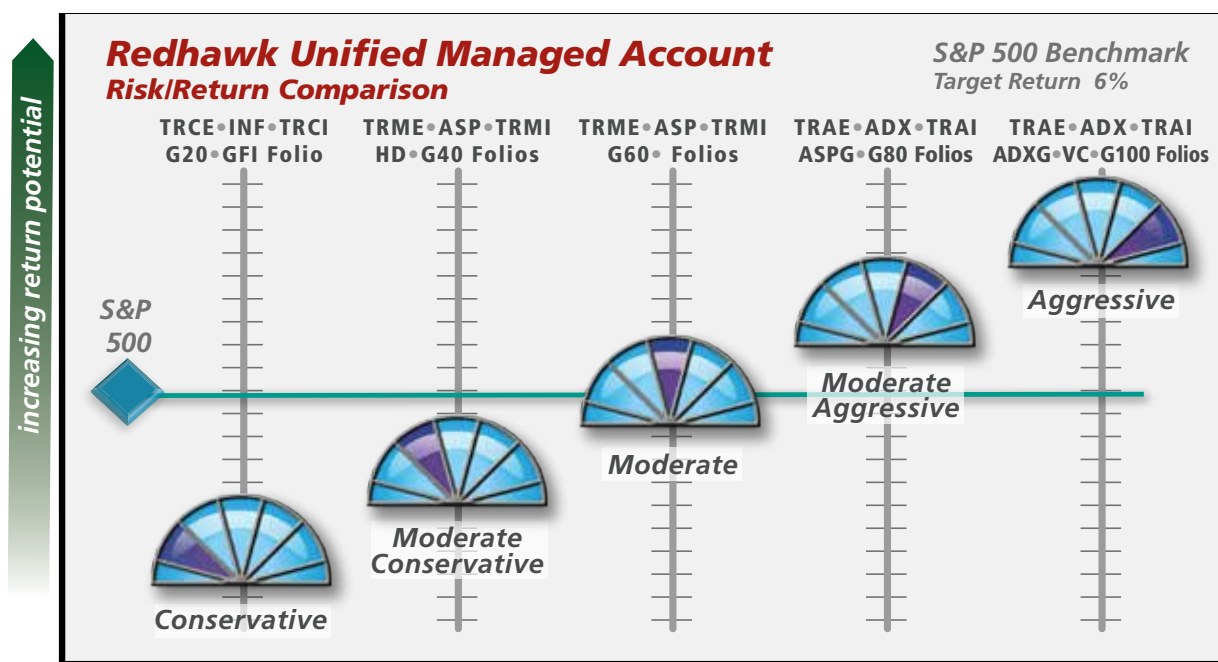

It is well known that asset allocation is one of the major drivers of investment performance. At Redhawk, we work with managers that focus on keeping your allocation in alignment with the ever-changing markets. The **Wealth Advisor and Retirement Plan** or ("**WARP**") Platform gives managers the flexibility to respond to the markets with strategic and tactical shifts in your portfolio allocation and to continue working hard at understanding the underlying economic trends that move the markets. This helps keep you on target towards your investment goals.

Our Tactical and Strategic model portfolios fall into 5 basic categories: Conservative, Moderate/Conservative, Moderate, Moderate Aggressive and Aggressive. Within each category there are 5 to 7 options to choose from. To determine the most suitable approach, the model matrix (page 3) allows the advisor and client to find the right column/category via the risk tolerance score and match that with the right row/investment personality to find the best model or models (in some cases, more than one model can be selected).

More information is available on www.redhawkwa.com. The intent of our **RUMA** platform is to provide a suitable option for virtually any type of client fitting one of these profiles.

Tactical		Strategic*	
Capital Preservation	Quicker time-out to cash	Capital Preservation	Manage risk via higher bond allocations
Balanced	Slower time-out to cash	Balanced	Blend bond and equity allocations
Growth	Seek growth via actively managed ETFs and Stocks	Growth	Global equity asset classes

*Tax Sensitive version of these models available

increasing risk potential

The illustration below portrays how portfolios seeking increased potential return also incur higher risk and increased volatility.

Next Steps

Please take a few moments to answer our online questionnaire using the link above. Your Redhawk Advisor can also provide assistance. The Wealth Advisor system is our gateway to creating your personal investment profile. It gives us insight into your individual investing style, your feelings about risk and timelines, and the goals you need to achieve for a comfortable retirement.

Your Redhawk Advisor will receive your "Personal Investment Program" and will review the 9-page report with you that outlines Redhawk's portfolio recommendation using very simple terms and illustrations. After reviewing the Personal Investment Program with your Redhawk Advisor, you should have a clear understanding of which of our portfolios can best achieve your investment goals. Our daily email publication, *Research Update* allows you to see our active monitoring in action and stay up-to-date on relevant investment and retirement issues. Thank you for your interest in **Redhawk** and **RUMA**.
